Tlogorejo, Demak, Jawa Tengah

Summary

Results-driven Computer Engineering graduate from Diponegoro University with academic background and hands-on experience in web development, IoT-based systems, and real-time monitoring and control applications. Experienced in building integrated systems using React.js, Node.js, PHP (CodeIgniter), MQTT, and RBAC for secure and efficient data communication and remote system control. Proven track record through industry internship as Frontend Developer at Dinas Komunikasi dan Informatika, as well as development of a laboratory furnace monitoring system in an academic research environment. Demonstrates problem-solving ability, adaptability, and solid foundations in software engineering, embedded systems, and networking, with a focus on delivering scalable and reliable technology solutions.

Education

Diponegoro University

Semarang, Indonesia

Bachelor of Computer Engineering, Faculty of Engineering (GPA : 3.74/4.00)

Aug 2022 – March 2026

- Relevant Coursework: Software Engineering, Object-Oriented Programming, Data Structures, Database Systems, Operating Systems, Human-Computer Interaction, Mobile Application Development, Internet of Things (IoT), Embedded Systems, Artificial Intelligence, Control Systems and Automation, Signal Processing, and Information System Security
- Publication (Accepted – Scopus Q4 Journal): "Real-time Monitoring and Remote Control of Laboratory Furnaces using MQTT and Role-Based Access Control." *AMPLITUDO: Journal of Science & Technology Innovation*, Vol. 5, Issue 2, Aug 2026. (Accepted)
- Winner – Scientific Writing Competition (KTI SOR 2022), School of Research 2022, Universitas Diponegoro

Experience

Dinas Komunikasi dan Informatika

Pekalongan, Indonesia

Frontend Developer

2 Jan 2025 – 31 Jan 2025

- Developed responsive user interfaces using PHP (CodeIgniter) and Bootstrap based on UI/UX design specifications
- Collaborated with backend teams to integrate features and manage data flow
- Developed responsive user interfaces using PHP (CodeIgniter) and Bootstrap, improving usability and layout consistency

CV Bangun Jaya Komputer

Tlogosari, Indonesia

IT Support Technician

Apr 2021 – Jun 2021

- Installed and configured Windows operating systems for client devices
- Troubleshoot and resolved issues on PCs, printers, and other hardware/software components
- Performed hardware and software maintenance to ensure optimal system performance
- Assisted with basic data entry and administrative tasks as needed

Himpunan Mahasiswa Teknik Komputer

Tembalang, Indonesia

Staff of Training and Career at RISTEK

Sep 2023 - Apr 2024

- As part of the Cadreization Division and acted as Vice Coordinator of the Recreation event
- Assisted in planning and organizing workshop-based orientation activities

- Coordinated workshop activities for new Computer Engineering students at Diponegoro University to introduce the four research pillars of Diponegoro University and the four core disciplines in the Department of Computer Engineering

Project

Furnace Monitoring & Control System - Energy and Nanomaterials Laboratory, Faculty of Science and Technology, Universitas Jambi

Software Developer

Aug 2025 – Nov 2025

- Developed real-time monitoring system using MQTT and Role-Based Access Control (RBAC)
- Built a web-based interface using React.js for remote control and real-time data visualization
- Integrated frontend (React) and backend (Node.js) to enable seamless real-time data communication, enabling efficient remote monitoring and control operations

Leadership & Activities

Research Orientation (Recreation)

Tembalang, Indonesia

Vice Chairperson

Oct 2023

- Co-led the organization of a workshop-based research orientation program for 185 participants
- Coordinated event execution and ensured alignment with four research pillars and core disciplines in Computer Engineering
- Collaborated with committee members to manage planning, logistics, and program delivery

Orientasi Diponegoro Muda Fakultas Teknik (ODM FT)

Tembalang, Indonesia

Volunteer Staff, Licensing Division

Jul 2023 – Aug 2023

- Assisted in managing event permits and administrative requirements for program execution
- Coordinated with internal teams to ensure compliance with licensing procedures
- Supported the smooth implementation of orientation activities

The ACE – UI/UX Competition

Tembalang, Indonesia

Volunteer Staff, Public Relations

Jul 2024 – Oct 2024

- Managed communication for the UI/UX competition, ensuring timely responses to participant inquiries and effective coordination with judges

Additional

- **Technical Skills:** JavaScript, PHP (CodeIgniter), React.js, HTML, CSS, Bootstrap, MySQL, IoT, MQTT, Computer Networking, Git
- **Languages:** Indonesian (Native), English (Intermediate – TOEFL Score 466)

Certifications

- **Software Engineering (Programming)** - BNSP, 2022
- **IT Essentials** - Cisco Networking Academy, 2023
- **Database Foundations** - Oracle Academy, 2024
- **Database Design** - Oracle Academy, 2024
- **CCNAv7: Introduction to Networks** - Cisco Networking Academy, 2024
- **CCNAv7: Switching, Routing, and Wireless Essentials** - Cisco Networking Academy, 2024
- **CCNA: Enterprise Networking, Security, and Automation** - Cisco Networking Academy, 2026
